## The company

3 Lines s.a. was established in 1983 and since then is dealing in the automotive after market.

Today the company is located in the industrial area of Mandra Attikis, 20km from the center of Athens city.

We are manufacturing a wide assortment of car mats in many carpet qualities that we always keep standard in our range. By this way we can offer our customers the potential to create their products exactly like they want, meaning to be able to choose the carpet material, the way of finishing, the color of finishing, the type of heelpad, logos, embroideries and fixing systems. All above carpet car mats characteristics can make your product unique, differentiated with its own profile.

**CERTIFIED  
QUALITY  
CONTROL**

3 LINES s.a. is applying a certified system of quality control according ISO 9001:2008

## Products manufactured

### Universal carpet car mats

With the 2 universal sizes tested on all modern cars we can assure for coverage of the majority of the cars.

### Custom made carpet car mats

Based on the flexibility of our production line and on the fact that there is no minimum order for us since even one single set can be produced and delivered to the customer, we can offer 100% tailored made mats with perfect fit produced 100% according the customer's specifications.

## Aim

Matching each single customer's special demands and requirements at the best price is the goal of our company.

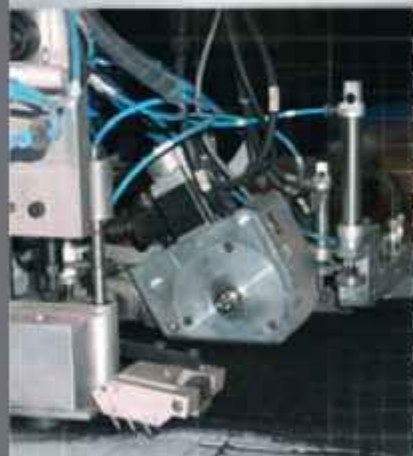

Application of ISO 9001:2008 certified system of quality control for the operation of our company and by using the latest technologies for the production of our carmats, ensure for standard quality.

## Sales Network
